

# Finishing Touches

We offer a wide variety of finishes to ensure our furniture co-ordinates perfectly with your interior scheme.

The timber element of the majority of our models can be stained in any of the standard wood finishes shown at no extra charge.

For an additional charge we can provide a colour stain matching service. Please provide a sample of the wood finish you require at the quotation stage to avoid any unnecessary delays to your order.

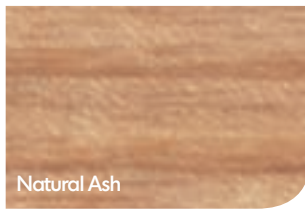

**Note:** These images are intended as a colour representation only due to the natural variations that occur in timber. We are also happy to provide stained wood samples – please contact our Customer Services Department on +44 (0) 1274 731900.

All visible polished wooden frames are European Beech, except the Woburn range, which is Ash.

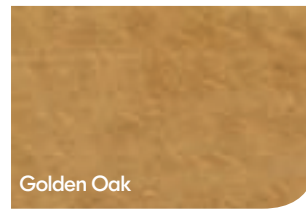

## Standard Wood Finishes

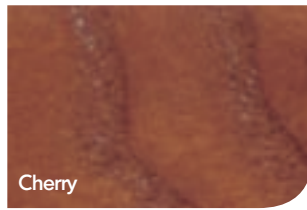

Natural Beech

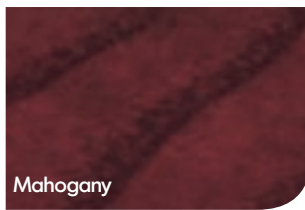

Natural Ash

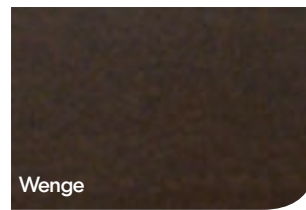

Golden Oak

Cherry

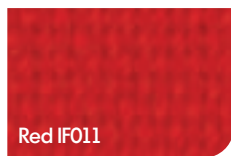

Mahogany

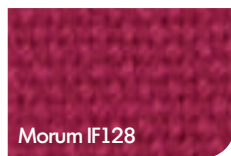

Wenge
