

Biggart Hospital, Prestwick

Staff at Biggart Hospital in Prestwick are now able to dine in style, following delivery of new chairs and tables from the Yorkshire-based Knightsbridge Furniture.

As a result of the close working relationship between the Knightsbridge team and procurement officers at NHS Ayrshire & Arran, the main staff dining room in Biggart Hospital has been equipped with seating from the Knightsbridge Rondo range, complemented by a selection of the company's Barra dining tables.

Both models combine sleek, contemporary lines with the warm appeal of natural wood, creating a dining area which has a light, yet essentially welcoming, atmosphere.
