DALTON CONTAINMENT ARMCHAIR DALTOK6026

The Dalton range is ideal for patient and ward chairs, waiting rooms, and reception

To ensure the Dalton patient chairs meet your exact patient needs, they are available with a range of optional features including housekeeping wheels, arm pads, pressure relief cushion, wings, various seat heights, height adjusters and a fixed seat.

Features and Benefits

- Lumbar support, this ensures that the correct position and posture is maintained
- Designed specifically for the healthcare
- Infection control friendly, the hygiene gap prevents trapping of dirt and bacteria between seat and back
- Waterproof under bottom as standard
- Polished frame with antibacterial finish
