

Designed for the modern hospital environment, Kintyre combines high levels of comfort with maximum practicality.

Features and Benefits

- Easy-to-use motorised recline system which reclines at the touch of a button
- Recline action is smooth and multifunctional
- Static load tested to 120kg
- Back can be stopped at any stage in the recliner to allow the user to find a comfortable position
- For maximum infection control, modern, pliable vinyls allow seams to be positioned away from high contact areas, producing a completely seam free seat area
