# Zoeftig inFINITE 4 Seat Beam Armed PU Seat & Back INFINITE4A-PU

The  inFINITE unique beamless design provides limitless reconfigurability enabling the seating to be changed and adapted to reflect the ever-changing needs and demands of waiting areas.

Easy maintenance: The spacing of arms and legs and design with its minimal footprint, means inFINITE is exceptionally easy to clean. Every last shape, surface and component junction has been carefully designed to avoid dirt traps, speed up maintenance and improve security by offering excellent transparency and uncluttered sightlines.

PU Seats and backs are manufactured using Z-Form self-skinning structural polyurethane foam system. The foam is moulded on to opensteel space frames, which allows the polyurethane foam to flex and conform to the users shape, enabling maximum comfort for extended periods.

- Versatile and robust, designed and manufactured especially for projects where the furniture will be in constant  use.
- Tested to EN12727:2016 Level 4 · EN16139:2013 Level 2
